**Cocoon Oil Makes A Splendid Shampoo**

If you want to keep your hair in good condition, be careful what you wash it with.

Most soaps and prepared shampoos contain too much alkali. This dries the scalp, makes the hair brittle, and is very harmful. Multifid cocoon oil shampoo (which is pure and entirely greaseless), is much better than anything else you can use for shampooing, as this can't possibly injure the hair.

Simply put two or three teaspoonfuls of Multifid in a cup or glass with a little warm water, then moisten your hair with water and rub it in. It will make an abundance of lather, and cleanse the hair and scalp thoroughly. The lather rinses out easily, and removes every particle of dust, dirt dandruff and excess oil. The hair dries quickly and evenly, and it leaves it fine and silky, bright, fluffy and easy to manage.

You can get Multifid cocoon oil shampoo at any drugstore. It is very cheap, and a few ounces is enough to last everyone in the family for months. Be sure your druggist gives you Multifid.—Advertisement.
